

Fondettes

Twinning association since 1975

Christine Becht
Chairwoman
Partnerschaftsverein
Wiesbaden-Naurod –
Fondettes e.V.

The twinning of Naurod and Fondettes is of course very important to me as the association chairwoman. This programme has created and is creating friendships between two nations. We get to know not only the country but also the family life, the language and the culture of France.

Since the twinning began, both towns have encouraged youth movements. The citizens of both communities support the twinning of Naurod and Fondettes. Both in the French town as well as here all the guests are given board and lodging by families. This means the town incurs no costs. I hope this will stay the same in the future.
