

## St. Veit

Twinned with Kostheim since 1989

**Gerhard Mock**  
Mayor

For me, town twinning means networking and an exchange of experiences among like-minded people. We can learn a lot from our partners in terms of best practice and vice versa. With Wiesbaden specifically we have succeeded in this superbly for decades.

I think town twinning in future should certainly be the driving force behind an intensification of economic relations – all the way to setting up actual businesses or cooperative ventures between companies. We certainly still have room to develop things here at present.
