

Terrasson

Twinning association since 1991

Patric Chouzenoux
Chairman
Comité de Jumelage
Terrasson-Lavilledieu

For many years already, several pairings had been signed between the College Theodor Fliedner of Bierstadt and the College Jules Ferry of Terrasson. Then, the Twinning oath was signed in 1991. In 1994, Terrasson and Theux in Belgium twined together. This is also in Terrasson where met our friends Bierstadt and Theux, that finalized a friendship pact in 2011. In 2000, we participated to the meetings between the Aquitaine Region and the state of Hesse, about subjects such as local economy.

With our friends Bierstadt-Wiesbaden, we believe to be in the beginning of a new era, the 3rd generation twinning especially for young people.

In this perspective, on the 19th of March 2016, we held in TERRASSON, with more than 40 local elected representatives and leaders from twin cities of our New Region, a symposium about "the future of our Jumelage" with title "exchange of experience or experience of exchange". All participants agreed to reinforce in the future the cooperation between our respective structures.

We wish indeed to merge the efforts of the Communes close geographically and living the twinning experience, in order to tend to the rise of the European citizenship.

All in the context of the decentralized cooperation of Regions and Communes in Europe.
