

## Terrasson

Twinned with Bierstadt since 1991

Our first exchanges focused on young people in our schools and colleges in a linguistic project. With our twinning committees, these exchanges have expanded, true friendships forged by promoting a cultural and tourist enrichment of our participants.

In the future, we believe it would be desirable in the context of European citizenship, these exchanges revolve around the values of tolerance and discovery of the other but that the Erasmus program allows more mobility of young people about business and the economic world.
