

Theux

Twinned with Bierstadt since 2011

Philippe Boury
Mayor

Theux and Terrasson have been twin cities for nearly twenty one years and signed a friendship pact with Bierstadt five years ago. We are a kind of a threesome. More seriously, this triangular relationship has made us widen our horizons in terms of culture, tourism, sports or gastronomy.

Obviously, european partners need to know each other more than ever to grow together. Twinning is a part of that purpose.

About the future, we shall have to strengthen the bond between us to go further together, and according to me, develop exchanges of citizenship practices and even build, where appropriate, common participatory models.
