Town twinning promotes exchanges between schools, in sport and at cultural events between countries and cultures, so that the inhabitants of these cities and especially children and young people can get to know and understand each other better.

Our twinning with Royal Tunbridge Wells has its origin and distinctiveness in the British making contact with their former enemy and the resulting connections and mutual visits by many families in the two spa towns.

The importance of town twinning in the future will also be the groundwork done for respect and acceptance, international understanding, peace and friendship.
